House Members Select Committees

This week, members elected to serve in the 95th General Assembly gathered in the House Chamber for an Organizational Meeting. Members chose their seats and committees, and incoming freshmen drew numbers for seniority. You can find the seniority list and lists of committee memberships at arkansashouse.org.

As we move forward, members have begun filing bills that will be considered during the upcoming 2025 Regular Session. More than 50 bills have been filed so far in the House. The proposed legislation addresses topics from maternal health coverage to voter registration. Our website also includes a link to the recently filed legislation.

There was another big development this week at the Capitol as Governor Sanders presented her balanced budget proposal to members. The governor's proposal calls for a 2.89% increase in spending. The governor says her proposal prioritizes education, maternal health, public safety, and government efficiency.

As Education Freedom Accounts will be available to any student in the state next year, the governor said she is proposing \$90 million in additional funding, plus an additional \$90 million in set aside funding to create a

reserve for the program.

The proposed budget also includes \$13 million in new Medicaid funding for proposals created by the Strategic Committee on Maternal Health. The proposal includes \$100 million for Medicaid sustainability.

The proposal includes \$3.15 million in new funding for the proposed state employee pay plan and nearly \$50 million for the Department of Corrections.

This proposal will be considered by the 95th General Assembly during the 2025 Regular Session. The session begins on January 13, 2025.
