## Alzheimer's Disease and Dementia Advisory Council Issues 2025 Report

On Monday, the Alzheimer's Disease and Dementia Advisory Council met at the Capitol to continue its important work under **Act 391 of 2021**.

The council is tasked with examining the needs of Arkansans living with Alzheimer's and other dementias, the services available to them and their caregivers, and how our healthcare system can meet both current and future demands.

As part of that work, the council reviewed and released its [2025 annual report](#).
